**keywords:** Editorial; alternative title: “The lies and scams of Australia's Public Sector Parasites” weblog in print; public sector parasites; nobodies with “influence”; print journal; with online archive; deposited in libraries; included in online library catalogues; Online access; search engine access; reader contributions; honorary guest editors; library “mirrors”; website=more than archives;

**Editorial:** The Louise Kitchen Amrita is an arcane title for a journal for people who have had the unfortunate experience of having to deal with the incompetent and parasitic public service in Australia. This journal could be subtitled, “The lies and scams of Australia's Public Sector Parasites”. As an alternative title, that would sound so boring.

The Louise Kitchen Armita [or LKA] will provide a forum to expose those nobodies in the public sector who find that the “public service” provides them with the most “influence” they could ever hope to have. This title will become esoteric knowledge for All Australians. It will become a catch-phrase to describe when one has been lied to, cheated and bullied by the parasites who are expected to “serve” us. As an example: “My mate Jack just got LKAed by Centrelink.” It will enter the English lexicon as a cliché for a particular type of action. We will explain the title in the next issue.

We propose a weblog called Louise Kitchen Amrita for these anecdotes. The pearls will be printed in future issues of this journal. This will give a degree of permanence to these incidents, because notwithstanding Google, the internet by its nature is ephemeral. Accordingly, our print publications are intended to add a degree of permanence and eternity to our publications.

So, Louise Kitchen Amrita is primarily a print journal with legal deposit obligations to be deposited in the National Library of Australia in Canberra and the State Library of Queensland and Queensland Parliamentary Library, and so be catalogued accordingly. Additionally, it will be available archived on our website <http://haigreport.com> as a .pdf file identical to the printed version. That will be additional to the weblog. Thus, it will be more readily available to the whole community, being also indexed/catalogued by google and other search engines. Some libraries may actually “mirror” our site and hold a copy of each of our publications on their server, depending upon how often it is requested of them. We intend to archive all our publications.

In future editions, we will entertain submissions from readers, and even on occasions invite honorary Guest Editors, with “By Lines” for contributors and guest editors. Our website, <http://haigreport.com> will contain more informations and features than just the archives of our print publications.
